

You talk with dozens of companies: why you should remember . .

EST

ENTERPRISE
SERVICES & TECHNOLOGIES

An 8(a)-certified, woman-owned, small business

Management

Simply put, good companies have good leadership and EST's management has an impressive history of accomplishment. **Chief Executive Officer Joanne Barnes** has more than 10 years of success in senior corporate positions such as Chief Operating Officer and Vice President. She has had direct responsibility for divisions with annual revenues of more than \$10 million and dozens of management and technical personnel.

Experience

Everything is easier when your support contractor comes to the table with knowledge of your organization. EST's personnel and consultants include many individuals with senior management experience in Government or who have worked with federal agencies for years. As an example, the federal organizations with which Ms. Barnes has had a long history include Offices within the U.S. Department of Health and Human Services, the U.S. Department of Agriculture, the U.S. Coast Guard and others.

Capabilities

Focus is the key to delivering excellent services. EST has a strong core group of capabilities and is intent on concentrating on delivering the best support possible within the following areas:

- Conference and Event Management
- Management and Administrative Support
- Internet Information Technology Support

EST has proven its ability to integrate the many complementary technical skills included within these core areas.
